

Flatbed Access Platforms

G-RAFF Flatbed Access Platforms offer superior fall protection when gaining access to flatbed trailers for tarping or securing loads.

Built to customer specifications and fully customizable, our Flatbed Access Platforms are the perfect solution for preventing falls for those climbing on flatbed trailers, a notoriously dangerous and common situation.

Features

G-RAFF Flatbed Access Platforms have many unique features:

- Built to customer specified dimensions and fully customizable
- Roll-track design allows for varying trailer widths and easier placement
- Increase productivity and facility safety at the same time
- Lightweight aluminum construction

Access Equipment

- These rolling platforms can also be combined with double-access platforms for greater site flexibility and extended access options.
- May be equipped with several access options

Finishes

- Aluminum
- Gray enamel / Safety Yellow
- Custom finishes available

Engineering

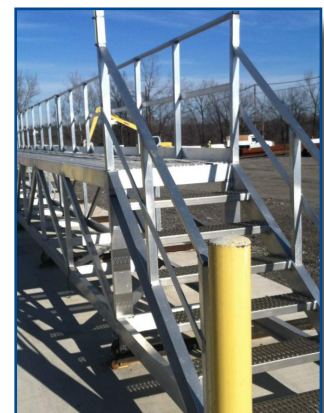

G-RAFF designs and custom-builds fall protection systems that meet even the most challenging requirements.

Our engineering team has over 150 years of experience collectively and utilizes state-of-the-art CAD software.

Options

- Available with or without Swing Gate access
- Available with power controls for single person operation
